

# Natural Resource Mapping and Land Protection Prioritization -

Or,  
Fun with GIS  
presented by  
Danna Truslow, Seacoast Land Trust

So much beauty .....

So many Challenges ...

## Land Protection Challenges

- Rapidly growing area
- Inexperienced Land Trust
- Need to understand Land and Resources
- Mapping to help chart a course ....

## Partnerships formed ...

The Seacoast Land Trust

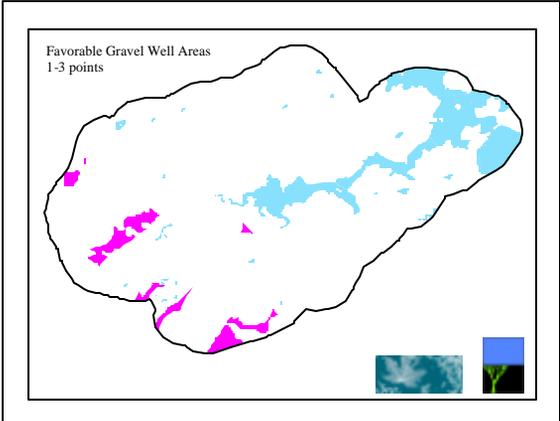

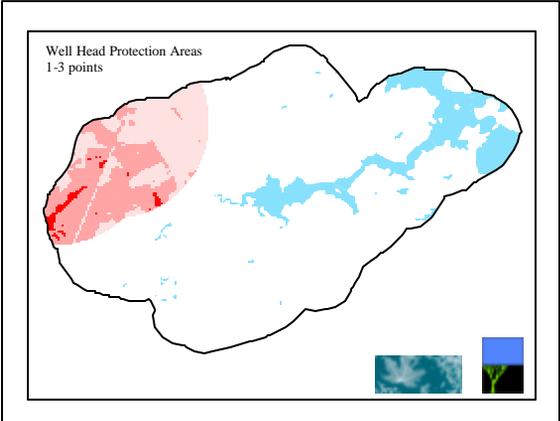

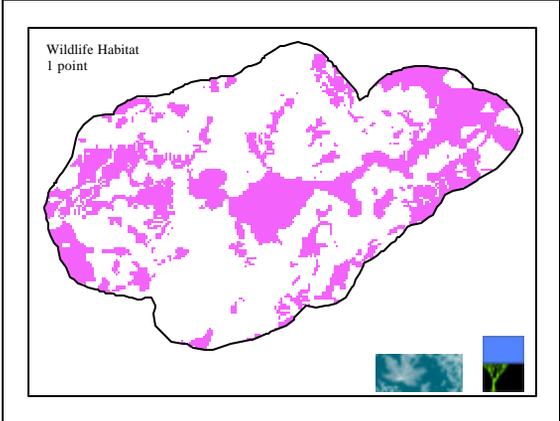

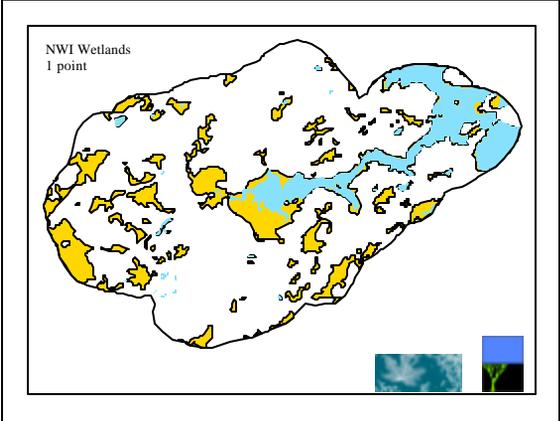

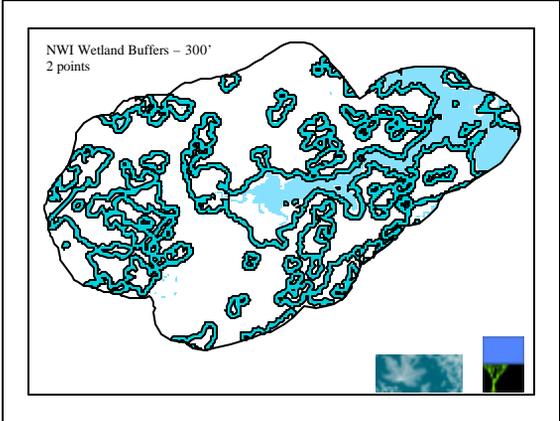

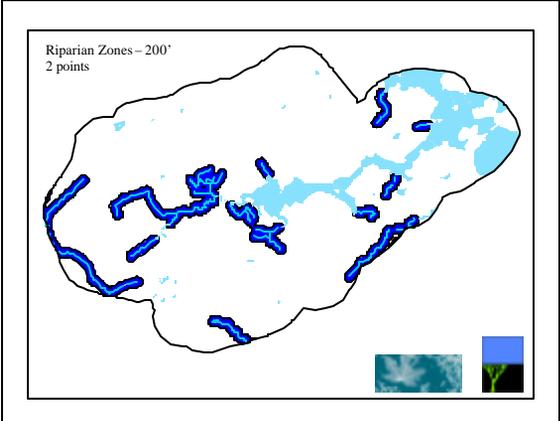

University of New Hampshire Cooperative Extension

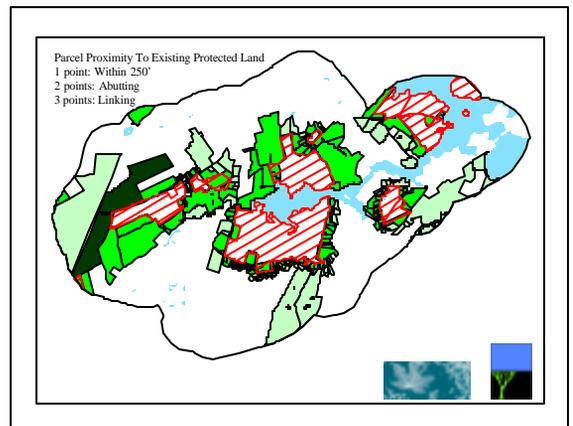

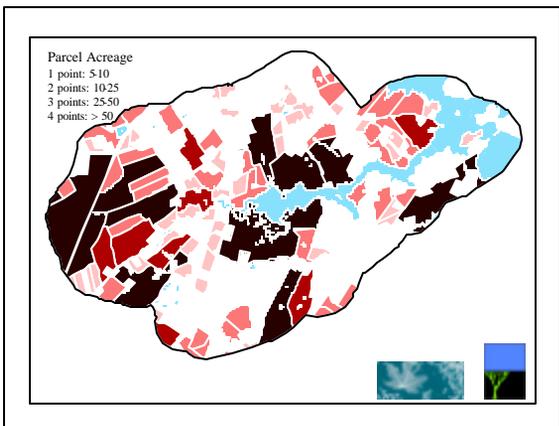

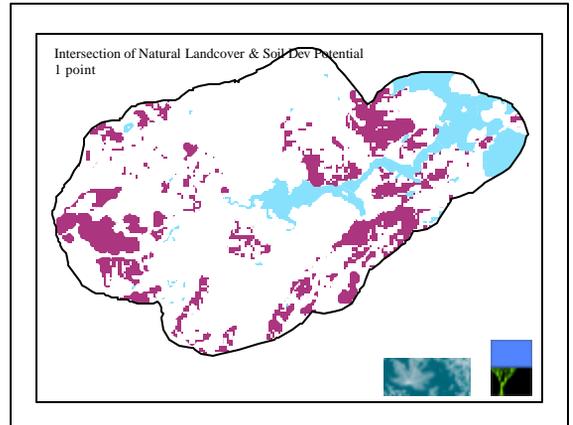

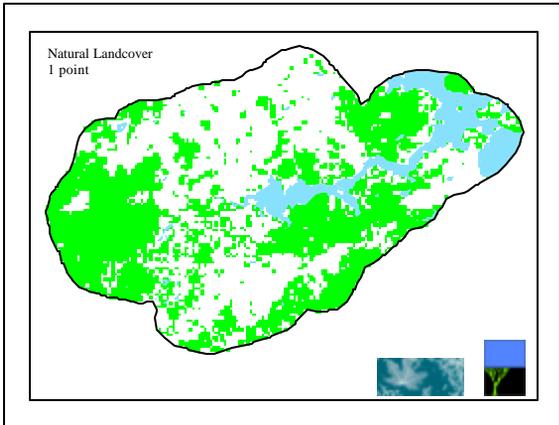

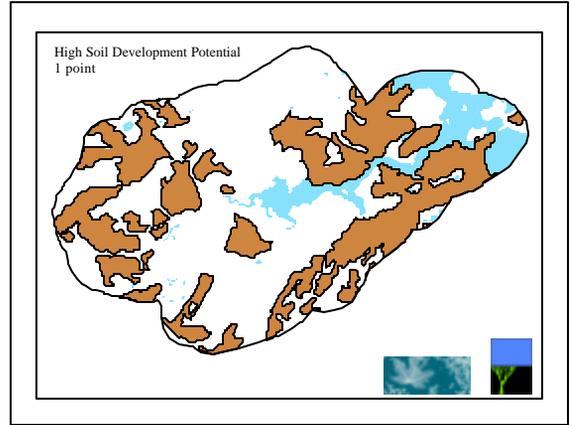

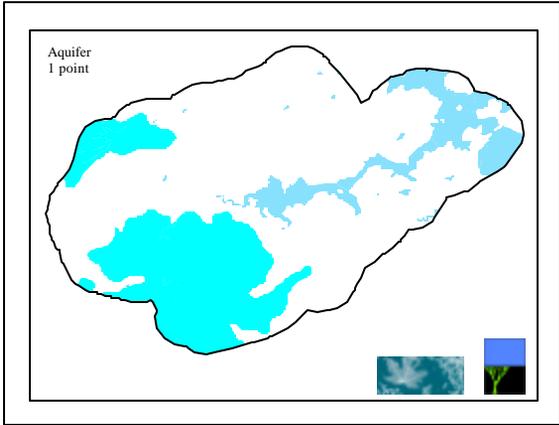

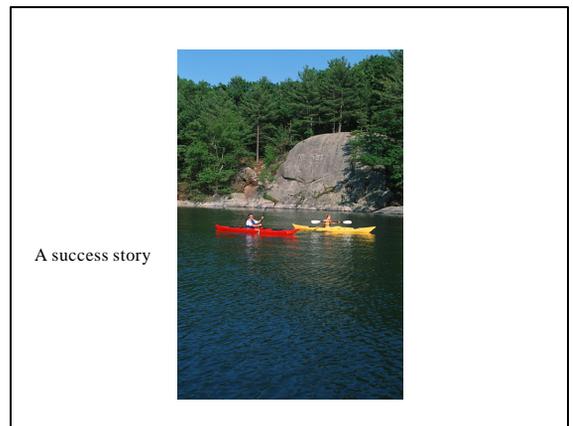

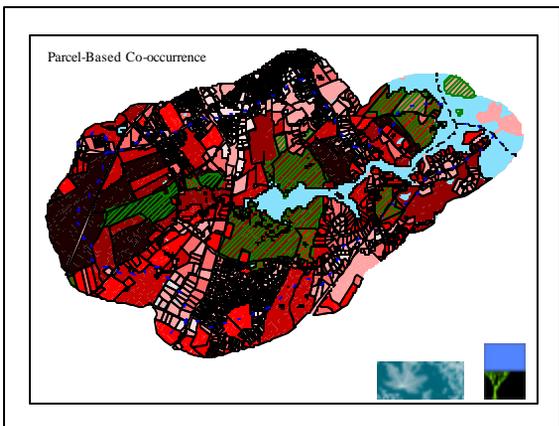

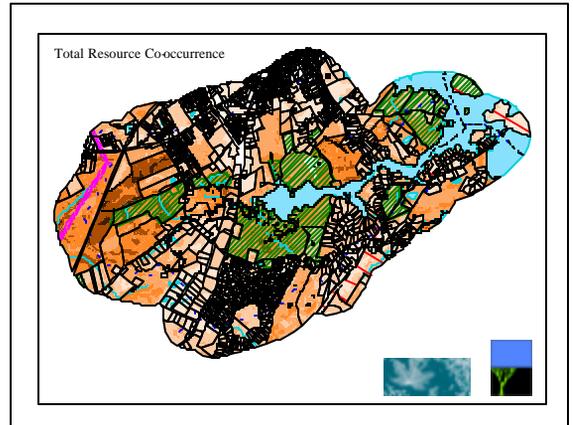

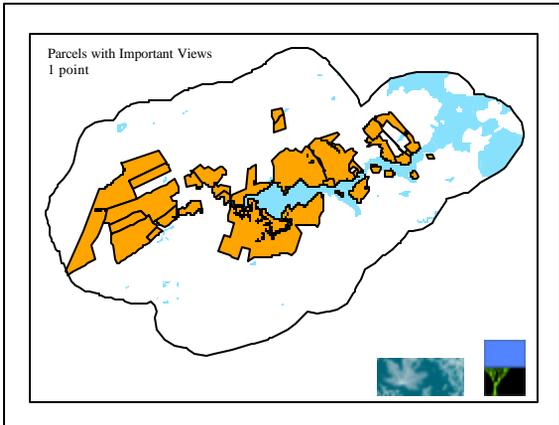

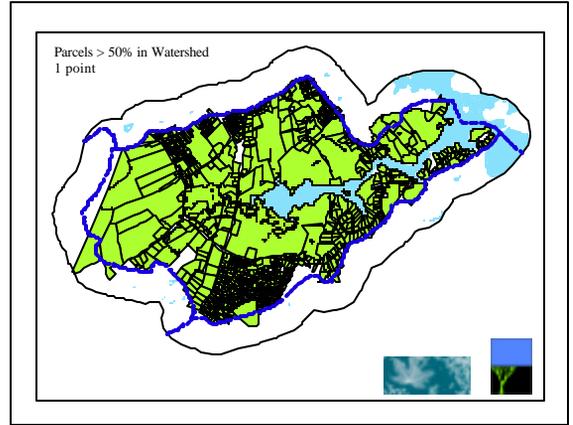

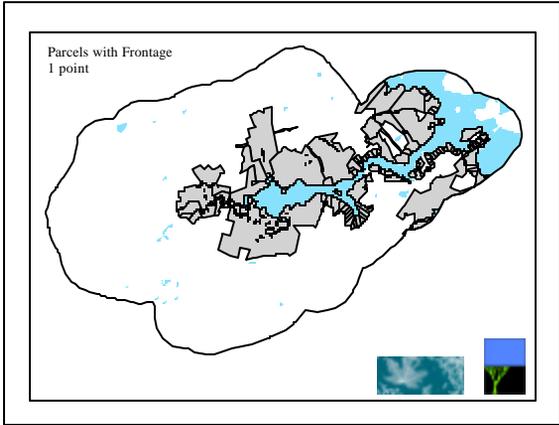

New Hampshire Education Project

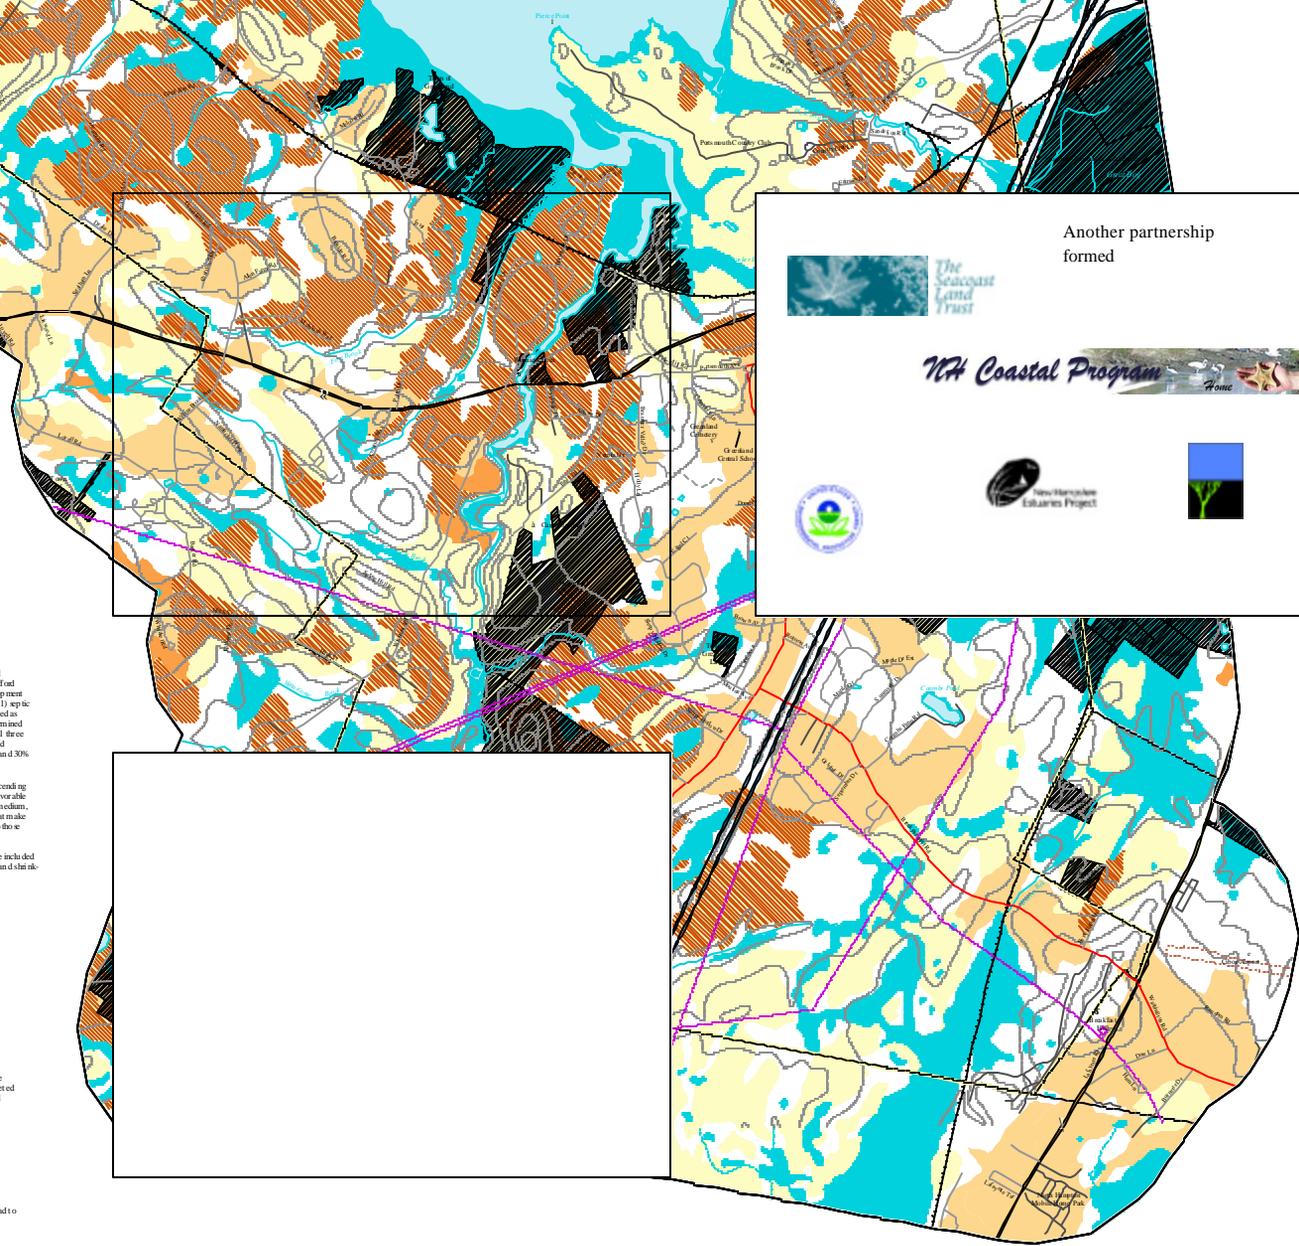

Mapping of Sagamore Creek Begins .....

Another partnership formed

DRAFT  
10/9/2003

**Important Soils**

Map prepared by The Society for the Protection of NH Forests for the Seacoast Land Trust - October 2003.  
Funded with a grant from the New Hampshire Estuaries Project.

**New Hampshire Estuaries Project**

The New Hampshire Estuaries Project is part of the U.S. Environmental Protection Agency's National Estuary Program (NEP). NEP is a joint local, state, and federal program established under the Clean Water Act to promote the protection and enhancement of nationally significant estuaries.
